AHMED ASHRAF SHABAN

Junior Penetration Tester / Cybersecurity Intern 📍 Mansoura, Egypt | 📞 01001037242

📧 ahmedelkodary292@gmail.com 🔗 LinkedIn | GitHub | Notion

CAREER OBJECTIVE

Junior Penetration Tester leveraging a strong full-stack architecture background to not just build authentication and access control layers, but completely understand where they break. Grounded in enterprise networking and OWASP Top 10 standards, with practical experience engineering secure web projects, conducting API hardening, and auditing logical flaws. Actively exploiting vulnerabilities via hands-on labs while crafting actionable security reports.

EDUCATION

July 2023 – Present **Expected Graduation: 2027**

Bachelor of Computer Science, Faculty of Computers and Information, Mansoura University **GPA: 3.4 / 4.00**

Certificates

Cisco Certified Support Technician (CCST) **Apr 2026** **Backend.NET from ITI (.NET)** **Feb2025**

Experience

Freelance Backend Developer & AppSec Enthusiast | Self-Employed

July 2024 – Present

Engineered and delivered secure full-stack web applications for diverse clients, managing the software development lifecycle from threat modeling to secure deployment.

Architected secure backend infrastructures and access control layers, significantly mitigating common web vulnerabilities prior to production.

Implemented robust cryptographic and authentication protocols to eliminate privilege escalation and unauthorized data access vectors.

Conducted manual security testing and peer code reviews to identify and patch authentication and logical flaws before deployment.

Skills

- **Offensive Security & Vulnerabilities: Web Application Penetration Testing, OWASP Top 10 (SQLI, XSS, CSRF, DOM), Logical Flaws.**
- **Security Tools & Testing: Burp Suite, Wireshark, Network Traffic Analysis, Manual Interception, Payload Crafting.**
- **Threat Concepts & AppSec: MITM, ARP Spoofing, Authentication Bypass, Session Auditing, Secure Code Review, Threat Modeling, RBAC.**
- **Software Architecture & Web Dev: PHP, RESTful APIs, Relational Databases (MySQL, SQL Server).**
- **Development & DevOps: Python (Scripting), Bash, Git, Docker, Linux**

PROJECTS

Clinic Management System **[View Project]** ***Nov 2025 – Present***

- **Architected secure RESTful APIs using PHP and MySQL with least-privilege designs to mitigate SQLi risks.**
- **Implemented secure JWT authentication, auditing token misconfiguration, improper expiry, and storage risks.**

E-Commerce Web Application ***Jan 2026 – Present***

- **Designed secure authentication flows protecting against brute force, session hijacking, and insecure credential handling.**
- **Audited REST API endpoints against OWASP API Security Top 10, focusing on product and order routes.**
